

MAGALLANES AND ANTÁRTICA CHILENA REGION

ROAD MAP

TORRES DEL PAINE NATIONAL PARK

Must-sees

PROVINCE

Última Esperanza

a panoramic view of the Paine's horns and ends at the Glaciar Grey.

★ TORRES DEL PAINE NATIONAL PARK

PARK. It is the uncontested star of the Magallanes and Antártica Chilena Region. It boasts the singularity of encompassing the Patagonia's main ecosystems in one place: pampas, forests, glaciers, mountains, lakes, and rivers. UNESCO declared it a World Biosphere Reserve in 1978.

The trail covers the park's most important landmarks. The foot of the Torres can be reached through the Río Ascension valley, and then on to Lago Nordenskjöld to reach the Los Cuernos shelter. The excursion continues along the valle del Francés, which has

the valle del Francés, which has

the foot of the Serrano glacier. Arctic beech until they reach Forest of Magellan's beach and has campsites and picnic areas. Enjoying a journey of exceptional beauty before disembarking declared National Reserve, and its main features include an abundance of wild flora and fauna. It is also

guided hiking trails are available, and sport fishing is allowed.

★ SIERRA BAQUALES. This is a medium intensity, approximately 12-kilometer trek. The park boasts views of Baquales range, where pumas, guanacos, and wild horses (baquales) coexist. During the

hike, one can see marine fossils that are millions of years old.

confirming that all of Patagonia around 60,000 specimens of Magellanic penguin colonies

it is home to one of the largest in South America, estimated at

these unique and striking birds.

★ PAUL AIKE NATIONAL PARK. Also

known as the Paul Aike cave, the site is declared as a natural

archaeo- or its highlights is the Paul Aike cave, the best place to watch the

humpback whales that arrive from the north during the spring.

MAGELLAN. This is a half-day trip to enjoy direct contact with nature, paddling through the mythical Strait of Magellan among birds

such as seagulls, terns, ducks, and sheldgeese, and on some occasions, alongside Peale's

dolphins.

FRANCISCO COLOANE MARINE PARK. Whale watching is one of its main attractions. Its

67,000 hectares of protected colony in south with America. A small

stream separates the magnificent few places in the world where these

geological systems are found, which offers the possibility of

investigating ecosystems similar to those that gave rise to life on Earth.

CALTEA MARIL. Founded in 1942, the former sawmill Calteá María was the last of the large timber settlements on the coast of Tenro

del Fuego's historical-cultural heritage, as well as the island's

park that promotes a new biodiversity conservation model.

Here, one can see peat bogs, parks Karunkinka, Yendegai and

Andean areas. Patagonian steppes, thickets, and coastal ecosystems,

which are representative of prowed albatross colonies.

PUERTO WILLIAMS

passenger and vehicle transport. A second option to cross to

Tierra del Fuego and Porvenir is to take the Bahía Azul barge (a

roughly 20-minute journey) of approximately 20 minutes, and

then follow the route to Porvenir (approximately 130 kilometers).

PUERTO EDÉN

It can only be accessed by sea through the Navimag ferry. From

Puerto Montt (North to South), the trip through the channels takes 2

days. From Puerto Natales (South to North), it is one day of navigation.

During the summer, there are approximately 18 hours of daylight.

Trekking. Due to its geographical diversity and spectacular natural scenery, this region is possibly one of the best trekking destinations in Chile. It is essential to protect

wildlife on all trails and not leave any garbage behind.

SPORT FISHING. Locations that are rarely frequented due to

accessibility, but at the same time have a great variety of fish,

especially trout. Tierra del Fuego has some of the best rivers and

lakes in the entire continent.

BRING! DO WE SUGGEST YOU

Waters, windbreakers, and sunscreens, sunglasses, and a cap. A

shorts, sandals, and long-sleeved shirts, and it is important to have

remarkable stories of eighteenth century ship-

La Montañas (an up to 10-day excursion).

HORSEBACK RIDING. For decades, means of transportation for the

king penguin colonies in America.

BAHIA INDI IN TIERRA DEL FUEGO. Torres del Paine and the Strait of Magellan.
